OBJECTIVE

Completed a Master of Computer Applications (MCA) with a strong foundation in computer applications, computer hardware, software development, operating systems, and IT support. Skilled in C#, HTML, CSS, JavaScript, computer troubleshooting, and technical problem-solving. Seeking an entry-level position in the IT industry where I can apply my technical knowledge, analytical skills, and willingness to learn while contributing to organizational success and professional growth.

TECHNICAL SKILLS

- Programming Languages: C#, Java
- Web Technologies: HTML, CSS, C#
- Database: MySQL
- Operating Systems: Windows 10/11
- Computer Hardware & IT Support: Computer Assembly, Hardware Troubleshooting, Software Installation, System Configuration, Desktop Support
- Productivity Tools: Microsoft Office (Word, Excel, PowerPoint, Outlook)
- Development Tools: Visual Studio, Visual Studio Code
- Core Skills: Technical Support, Troubleshooting, Problem Solving, User Support

PROJECTS

GreenCloud: Carbon-Aware Cloud Workload Management

Python (Flask), HTML, CSS, JavaScript, Bootstrap, MySQL

- Developed a full-stack cloud management platform with Admin, Owner, and Sub User role-based authentication.
- Implemented secure Email OTP verification, password reset workflow, account approval, and role-based access control.
- Built real-time cloud resource monitoring, VM server management, workload scheduling, energy analytics, and cloud storage management dashboards.
- Designed a modern glassmorphism UI with responsive layouts, interactive dashboards, Chart.js visualizations, and secure file management using a MySQL backend.

Namma Veedu RGCET – Food Ordering & Restaurant Management System

ASP.NET MVC, C#, Entity Framework, SQL Server, Bootstrap

- Developed a responsive restaurant management and food ordering platform using ASP.NET MVC and SQL Server.
- Implemented secure authentication and authorization with separate Admin and Customer dashboards.
- Built menu browsing, cart management, online ordering, wallet system, coupons, wishlist, live order tracking, and customer reviews.
- Designed an admin portal for managing food items, categories, inventory, orders, delivery personnel, sales reports, and promotional offers.
- Applied Entity Framework with Repository/Service architecture, Bootstrap UI, and server-side validation for a scalable, maintainable application.

EXPERIENCE

- Project Trainee – Aalpha Net Solution, Madurai

Jan – Jun 2026

 - Completed final-year MCA academic project training, developing the GreenCloud: Carbon-Aware Cloud Workload Management System (Python, Streamlit, MySQL).
 - Worked with dedication and professionalism throughout the training, successfully completing the project within the stipulated duration.
- In-Plant Trainee – Manufacturing, Lenovo (India) Pvt. Ltd.

Mar 2023

 - Completed a 22-day in-plant training in Lenovo's Manufacturing department, gaining exposure to industrial operations, production workflows, and quality control processes.
